क्यूसीबी-वैट

FOR I.M./I.V. USE ONLY

RHYTHMZ I.U.

For Veterinary use only

Cephalexin and
Serratiopeptidase
Dry Suspension

Advantages:-

- * Reduces pain and uterine inflammation.
- * Liquifies pus and debris.
- * Heal deep seated infections.
- * Faster recovery.

Hit hard on the nosocomial infections

Tazojact

Piperacillin & Tazobactam 4.5 gm

Piperacillin

A potent broad spectrum antibiotic

Tazobactam

Irreversible inhibitor of bacterial β -lactamase

Enhances the activities of β -lactamase antibiotics, including piperacillin

Combines extended spectrum antipseudomonal penicillin, Piperacillin and Tazobactam- potent β -lactamase inhibitor

Rapid Distribution within 30 minutes

Good concentration in the lungs, G.I. tissue and muscle/fat tissues

Low sodium content therefore can be safely used in patients on salt restricted diets

Nosocomial pneumonia

Gynecological Infections

Community-acquired pneumonia

Postpartum endometritis

Appendicitis

Pelvic inflammatory disease

Skin & Soft tissue infections

Diabetic foot infections

For faster act over infections....

Tazojact

Faster relief
from pain

Winac

Diclofenac Sodium 1 ml. **painless Injection**

First choice in renal colic

Diclofenac Sodium is highly recommended as the first choice of treatment in acute renal colic

Orv Hetil. Hungary 1996

Satisfactory results in biliary Colic

Provides satisfactory pain relief & decrease substantially the rate of progression in acute cholecystitis

Downey Gastroenterology United States 1997

Osteo Arthritis

Spondylitis

Rheumatoid Arthritis

Renal & Abdominal Colic

Post operative pain

Defeat pain, inflammation & swelling
