Isapaghula

A wonderful bulking fiber for constipation & reduces fecal incontinence

Fennel Seed

Like in caraway, fennel seeds too are rich source of dietary fiber. 100 g seeds provide 39.8 g of fiber. Much of this roughage is metabolically inert insoluble fiber, which helps increase bulk of the food by absorbing water throughout the digestive system and easing constipation problems.

Liquorice

Irritable bowel syndrome (IBS). Early research suggests that a product containing slippery elm bark, lactulose, oat bran, and licorice root can improve bowel movements in people with constipation-related to IBS. Stomach pain and bloating might also be reduced.

Only Isapaghula that can be given with milk
